

Imani Johnson – Diversity Student Alliance

Hello fellow La Guardians, This is Imani J, a devoted candidate willing to help the students here at La Guardia. I am a Liberal Arts Social Sciences and Humanities major with a discipline in Deaf Studies and have many ideas of how La Guardia can be better for all of us. One of my most prominent passions has always been to help and influence others. So by deciding to run for student government association, I can ensure that I will always try to help guide my peers with any concerns and worries they have about college. I would also like to help those who don't quite feel as though they belong at La Guardia by introducing them to organizations and other extracurricular activities that are right for them. Lastly, I plan to encourage those at La Guardia to be upstanding students and help our community in any way they can. If I am elected as a governor, I can spend my time ensuring that these goals are met amongst the society here at our college. Vote for Unity. Vote for Better.
